ADVENTURE IN LEARNING

Parent Weekly Newsletter 5 January 2018

Dear Parents,

Welcome back and happy New Year to all! Although it has been a short week here at school, it has been packed full of activity and content. This week the students took part in entry point activities for the unit 'Risk', as progress involves exposing ourselves to and considering the impact of forms of danger, harm, uncertainty or opportunity.

The students firstly reflected on their own experience of risk during the trip to Jinja last term. They discussed the possible danger, harm and uncertainties they faced on the trip as well as the precautions that were taken to ensure their safety and the opportunities and experience they gained. The students then played a probability game using dice. They started exploring varying outcomes and combinations of rolling the dice. This introduced the idea of calculating outcomes and the risk involved in decisions.

On Friday afternoon the students analysed the different risks they take in their lives both physical, such as travel and emotional, such as making friends. The students were able to recognise which risks could be more easily calculated using probability. The students saw examples of risk through watching a documentary on the risks some children in East Africa and Mexico take to travel to school. The students concluded their activities by each creating a goal for the future and mapping out the risks they may need to take to achieve these goals and the strategies they can use to avoid harm and danger when taking these risks.

*** Please remember to send in your child's signed report card and please choose meeting times on the below schedule for the conferences Tuesday Jan. 9th. *** Please also review the Term 2 after-school club schedule below.

Student-Parent-Teacher Conferences

Tuesday January 9th, 2018 12:30-3:30pm.
